

Pavel Parízek

Curriculum Vitae

Contact

Address: Department of Distributed and Dependable Systems, Faculty of Mathematics and Physics, Charles University
Malostranske namesti 25, 118 00 Prague 1, Czech Republic

E-mail: parizek@d3s.mff.cuni.cz

WWW: <http://d3s.mff.cuni.cz/people/pavelparizek>

Employment

Associate Professor **05/2020 –**
Dep. of Distributed and Dependable Systems, Faculty of Mathematics and Physics,
Charles University, Prague, Czech Republic

Assistant Professor **09/2012 – 04/2020**
Dep. of Distributed and Dependable Systems, Faculty of Mathematics and Physics,
Charles University, Prague, Czech Republic

Post-doctoral Fellow **05/2010 – 08/2012**
David R. Cheriton School of Computer Science, Faculty of Mathematics,
University of Waterloo, Ontario, Canada

Assistant Professor **07/2009 – 04/2010**
Dep. of Software Engineering, Faculty of Mathematics and Physics,
Charles University in Prague, Czech Republic

Researcher **10/2008 – 06/2009**
Dep. of Software Engineering, Faculty of Mathematics and Physics,
Charles University in Prague, Czech Republic

Education

Ph.D. in Software Systems **2008**
Faculty of Mathematics and Physics, Charles University in Prague, Czech Republic

RNDr. (similar to Ph.D. candidate) **2007**
Faculty of Mathematics and Physics, Charles University in Prague, Czech Republic

Mgr. (MSc equivalent) in Computer Science

2005

Faculty of Mathematics and Physics, Charles University in Prague, Czech Republic

Research Projects

Scalable Techniques for Analysis of Complex Properties of Computer Systems

Funded by: Czech Science Foundation

Duration: January 2020 – December 2022

My role: team member

Analysis of Data Lineage in Complex Software Systems

Funded by: Manta Tools (contractual research)

Duration: October 2018 – September 2021

My role: Principal Investigator

Automated Incremental Verification and Debugging of Concurrent Systems

Funded by: Czech Science Foundation

Duration: January 2018 – December 2020

My role: Principal Investigator

Trust 4.0: Dataflow-based Privacy and Trust Modelling and Analysis in Industry 4.0 Systems

Funded by: Technology Agency of the Czech Republic

Duration: January 2018 – December 2019

My role: team member

<http://trust40.ipd.kit.edu/home/>

Verification and Bug Hunting for Advanced Software

Funded by: Czech Science Foundation

Duration: January 2017 – December 2019

My role: team member

Automatic Formal Analysis and Verification of Programs with Complex Unbounded Data and Control Structures

Funded by: Czech Science Foundation

Duration: January 2014 – December 2016

My role: team member

Practical Program Verification Using Combination of Static and Dynamic Analysis

Funded by: Czech Science Foundation

Duration: February 2013 – December 2015

My role: Principal Investigator

Quality Impact Prediction for Evolving Service-oriented Software (Q-ImPrESS)

Funded by: European Union under the ICT priority of the 7th Research Framework Programme

Duration: January 2008 – December 2010

My role: team member

<http://www.q-impress.eu>

Open Source Platform and Infrastructure for Run-time Integration of Services (OSIRIS)

Funded by: ITEA/EUREKA Programme

Duration: July 2005 – June 2008

My role: team member

<http://www.itea-osiris.org>

Component Reliability Extensions for the Fractal Component Model (CRE)

Funded by: France Telecom R&D

Duration: January 2005 – June 2006

My role: team member

http://d3s.mff.cuni.cz/projects/formal_methods/ft/

Publications

Journal Publications

- [1] P. Parížek and O. Lhoták. Fast Detection of Concurrency Errors by State Space Traversal with Randomization and Early Backtracking. *International Journal on Software Tools for Technology Transfer*, vol. 21, issue 4, Springer, 2019

- [42] P. Parízek and F. Plášil. Specification and Generation of Environment for Model Checking of Software Components. Tech. Report No. 2005/5, Dep. of SW Engineering, Charles University, 2005

Theses

- [43] P. Parízek. Formal Verification of Components in Java. Ph.D. thesis, advisor: František Plášil, 2008
- [44] P. Parízek. Transactions in Peer-to-Peer Systems. Mgr. thesis, advisor: Petr Tůma, 2005

Selected Talks

1. Systematic Testing of Concurrent Programs Using Combination of Static and Dynamic Analysis. Imperial College London, 2014; ECOOP PC seminar, 2015
2. Practical Verification and Bug Finding with Java Pathfinder. Oxford University, 2012; Aarhus University, 2012

Software

BUBEN: Automated generator of library abstractions for scalable bug detection in large Java programs with Java Pathfinder

<https://github.com/d3sformal/buben>

JPF-Inspector: GDB-like debugger that allows the developer to control and inspect execution of a Java program under Java Pathfinder

<https://github.com/d3sformal/jpf-inspector>

PANDA: Predicate Abstraction in Dynamic Analysis

<https://github.com/d3sformal/panda>

JPF-static: Practical verification using static analysis and Java Pathfinder

http://d3s.mff.cuni.cz/projects/formal_methods/jpf-static

J2BP: Tool for automated construction of predicate abstraction of Java classes
<http://d3s.mff.cuni.cz/~parizek/j2bp>

RTEMBED: Java Pathfinder extension for exhaustive testing of Java programs for real-time and embedded platforms (RTSJ and SCJ)
<http://d3s.mff.cuni.cz/~parizek/rtembed>

COMBAT: Component Behavior Analysis Toolset
http://d3s.mff.cuni.cz/projects/formal_methods/combat

Teaching Experience

Courses taught at Charles University:

Program Analysis and Code Verification: 2008-2009, 2013-2021
Commercial Workshops – organization: 2018-2021
Formal Foundations of Software Engineering: 2015-2020
Advanced Tools for Software Development and Monitoring: 2014-2021
Software Development Tools: 2013-2020
NetBeans and Eclipse Platforms: 2013-2014
Recommended Programming Practices – labs: 2010, 2013
Embedded and Real-Time Systems – labs: 2010
Java – labs: 2009
Software Development and Monitoring Tools: 2008, 2012 (labs)
Internet – labs: 2007-2008

Students

Current Students

1. Josef Kumštýř, Mgr (MSc equivalent), started in February 2021
2. Denis Leskovar, Bc, started in September 2020
3. Lukáš Riedel, Mgr, started in October 2020
4. Dalibor Zeman, Mgr, started in May 2020
5. Filip Havel, Mgr, started in May 2020
6. Vlastimil Dort, PhD, started in October 2016
7. Jakub Daniel, PhD, started in October 2013

Past Students

1. Harun Ćerim, Mgr (MSc equivalent), March 2020 – September 2020
Extending C# with a Library of Functional Programming Concepts
2. Oskar Hýbl, Mgr, January 2020 – September 2020
Data Lineage Analysis of Frameworks with Complex Interaction Patterns
3. Martin Wirth, Mgr, November 2019 – September 2020
Balancing Keyword-Based Data and Queries in Distributed Storage Systems

4. Andrej Jurčo, Bc, October 2019 – September 2020
Data Lineage Analysis for Qlik Sense
5. Andrej Čižmárik, Mgr, December 2018 – February 2020
Dynamic Analysis Framework for C#/.NET Programs
6. Richard Eliáš, Mgr, October 2018 – September 2019
Analyzing Data Lineage in Database Frameworks
7. Denis Drobny, Bc, October 2018 – June 2019
Extracting Information from Database Modeling Tools
8. Filip Kliber, Mgr, January 2018 – September 2018
Runtime Checking of Privacy and Security Contracts in Dynamic Architectures
9. István Satmári, Mgr, June 2016 – September 2018
Frege IDE with JetBrains MPS
10. Roman Kápl, Mgr, November 2017 – June 2018
Dynamic Analysis for Finding Endianity Bugs
11. Petr Hudeček, Mgr, October 2016 – September 2017
Soothsharp: A C#-to-Viper Translator
12. Jakub Háva, Mgr, March 2016 – June 2017
Monitoring Tool for Distributed Java Applications
13. Filip Kliber, Bc, May 2016 – September 2016
Design and Implementation of a Language for Code-golf Challenge
14. Přemysl Vysoký, Mgr, April 2016 – September 2016
Grammar to JetBrains MPS Converter
15. Vlastimil Dort, Mgr, February 2015 – September 2016
String Analysis for Code Contracts
16. Jan Škvařil, Mgr, September 2014 – September 2016
Web System for Crowdfunding Based on Selling Items with Custom Imprint
17. Tomáš Šafařík, Mgr, June 2015 – June 2016
Java Bytecode Preprocessor for Program Verification Tools
18. Jonáš Klimeš, Mgr, May 2014 – June 2016
Domain-Specific Language for Learning Programming
19. Pavel Jančík, Mgr, April 2009 – September 2010
Checking Compliance of Java Implementation with TBP Specification
20. Rudolf Tomori, Bc, October 2008 – June 2009
Automatic Detection of Web Application Vulnerabilities
21. Nodir Yuldashev, Mgr, December 2006 – May 2009
Using Java PathFinder for Construction of Abstractions of Java Programs
22. Zdeněk Bouška, Bc, October 2007 – January 2009
Traffic Monitoring in TCP/IP Networks
23. David Brodský, Bc, November 2006 – August 2007
Distributed Hash Table for BitTorrent Client

Professional Service

Conference/Workshop Organization

1. JPF Online Day 2020 (co-chair)

Program Committees

1. European Conference on Object-Oriented Programming (ECOOP): 2015
2. Symposium on Applied Computing, special track on Object Oriented Programming Languages and Systems (OOPS track, SAC): 2015, 2016, 2018
3. Java Pathfinder Workshop: 2011-2013, 2017-2019
4. International Workshop on Java Technologies for Real-time and Embedded Systems (JTRES): 2010

Journal Referee

1. Science of Computer Programming
2. Software Testing, Verification and Reliability (STVR)
3. ACM Transactions on Software Engineering and Methodology
4. Concurrency and Computation: Practice and Experience
5. IET Software

External Reviewer

1. Formal Methods in Computer-Aided Design (FMCAD): 2016
2. European Conference on Object-Oriented Programming (ECOOP): 2008, 2016
3. International Symposium on Static Analysis (SAS): 2011
4. International Symposium on Component-Based Software Engineering (CBSE): 2010
5. World Congress on Formal Methods (FM): 2009

Other

1. Member of the subject-area board for computer science (informatics) of the Charles University Grant Agency (GAUK): from September 2016
2. Local organizer for conferences and workshops: ECOOP 2015
3. Mentor in the Google Summer of Code (GSoC) program for the Java Pathfinder team: 2010-2013, 2016, 2019-2021
